The screenshot shows the wiTECH 2.0 application interface. On the left is a navigation sidebar with categories: VEHICLE, UTILITIES, RESOURCES, HELP, ME, and SYSTEM. The 'HELP' category is expanded, and 'Knowledge Base' is highlighted with a red box. The main content area is titled 'Vehicle Selection' and shows a list of connected vehicles. The first vehicle is a 2009 RAM 1500 PICKUP 5.7L V8 HEMI MDS V.V.T. (EZH). Below the vehicle name, there are fields for VIN (1D3HV13T99S800188), Device Name (Ordner Production), Device Serial Number (WSP-17016), and Connection Time (12:25:30 PM). To the right of these fields are four statistics: 45 DTCs, 2 Flashes, 0 Recalls, and 0 RRTs. A 'Sort By: Connection Time' dropdown is visible in the top right of the vehicle list. A note at the bottom of the vehicle list states: 'List refreshes automatically as devices are connected or removed.'

The screenshot shows the 'Access the wiTECH Knowledge Base' screen. The left sidebar is the same as in the previous screenshot, but 'Knowledge Base' is now highlighted with a blue bar. The main content area has a title 'Access the wiTECH Knowledge Base' and a paragraph of text: 'wiTECH has an extensive Knowledge Base system in place to support you and ensure that you have the best experience possible using wiTECH. Whether you're reading helpful and informative articles, troubleshooting issues, viewing video tutorials, or just catching up on the latest news, the Knowledge Base is a great way to stay informed on all things wiTECH.' At the bottom right of the main content area, there is a button labeled 'wiTECH Knowledge Base' with an external link icon, which is highlighted with a red box.
