To associate a Service Technician with a microPod:

1. Select **Edit Users** on the appropriate line showing the microPod **Serial Number** you are associating
2. If **No Users'** is shown, this microPod still needs to be associated
3. If a **number** is shown, it indicates how many Service Technicians are associated to that particular microPod

Locate the correct Service Technician from the drop-down menu and click "Map User" button.

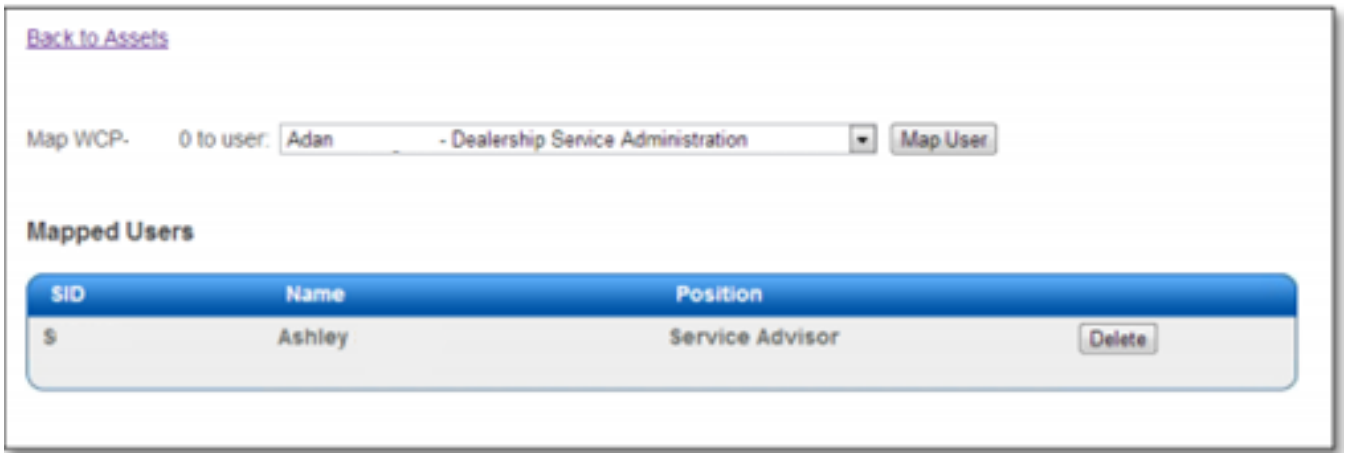

(Note: only one Service Technician can be selected at a time)

You are Complete!

a. The associated Service Technician will then appear as a Mapped User

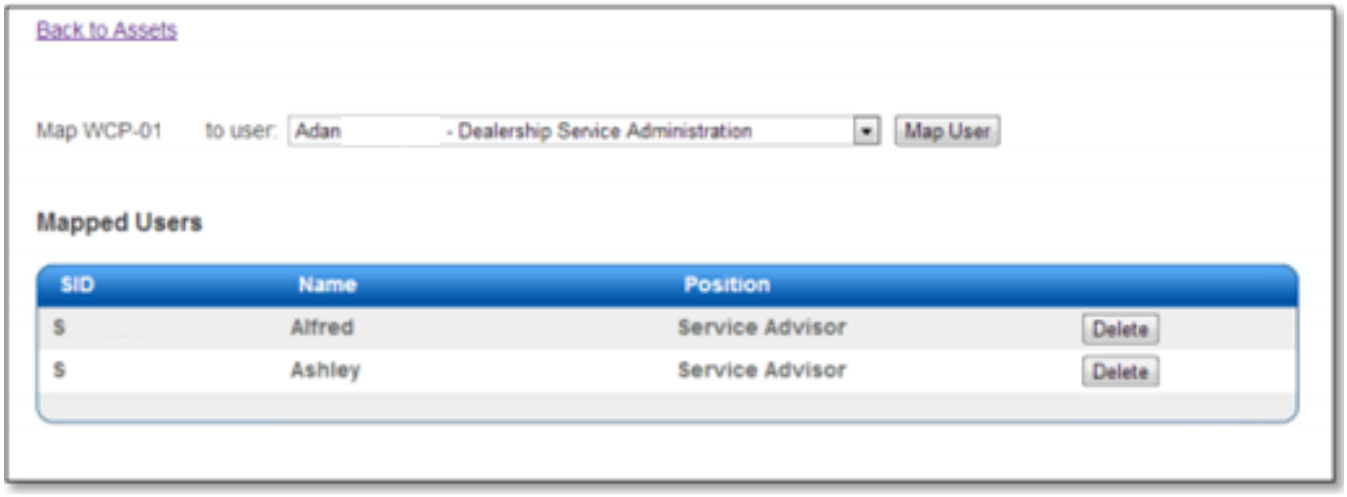

b. Service Technicians and associated microPods will appear in the wiTECH 2.0 User Interface screens

If you wish to **add multiple users** onto a single microPod, click on the drop down box, select the employees name and click **Map User**.

a. Continue to add all users as desired.

b. All **Service Technician** and **associated microPods** will appear in the **wiTECH 2.0 User Interface screens**

Note: DO NOT assign more than 26 users to the same microPOD II as wiTECH 2.0 System cannot handle more than that limit.

In order to delete users, click the “Delete” button and the employee will be removed from the mapped list.

Note: Allow 30 minutes for the changes to complete before communication can be achieved.

Please contact wiTECH Premium Support at 1-888-948-3241 or via email at support@witechtools.com if you need further assistance on associating tools to the users.
