

Account is Locked After Too Many Failed Login Attempts

460 Chris Ordner Tue, Jul 3, 2018 [wiTECH 2 Public Articles](#) 3268

wiTECH 2.0 will automatically lock a users account after 3 failed login attempts. The account will only be locked for 15 minutes. Once the account has become unlocked, the user will have another 3 attempts to login again.

An example of a failed login attempt includes using the incorrect password or Dealer Code.

The screenshot displays the MOPAR wiTECH 2 login screen. At the top, the MOPAR logo and wiTECH 2 logo are visible. Below the logos, there are four input fields: a user ID field containing 'S1234AB', a password field with masked characters '*****', a dealer code field containing '12345', and a dropdown menu currently set to 'DealerCONNECT'. A red error message box is centered on the screen, stating: 'Account locked. Maximum number of failed login attempts has been reached.' Below the error message is a 'Sign in' button. In the bottom right corner, there is a link that says 'Edit Preferences'.
