

Account is Locked After Too Many Failed Login Attempts

460 Chris Ordner Tue, Jul 3, 2018 [wiTECH 2 Public Articles](#) 3268

wiTECH 2.0 will automatically lock a users account after 3 failed login attempts. The account will only be locked for 15 minutes. Once the account has become unlocked, the user will have another 3 attempts to login again.

An example of a failed login attempt includes using the incorrect password or Dealer Code.

The screenshot shows the wiTECH 2 login interface. At the top, the Mopar logo and the wiTECH 2 logo are displayed. Below them are four input fields: a user ID field containing 'S1234AB', a password field containing '.....', a dealer code field containing '12345', and a dropdown menu set to 'DealerCONNECT'. A red error message box is centered below the fields, stating: '⚠ Account locked. Maximum number of failed login attempts has been reached.' At the bottom left is a 'Sign in' button, and at the bottom right is a link to 'Edit Preferences'.
